Address:  
6218 Lerner Hall  
New York, NY 10027

Telephone:  
212-853-5138

## Education

Columbia University, School of Engineering

- Pursuing Bachelor of Science degree in Computer Science
- Graduation in May 2003

## Work Experience

School of Engineering Deans Office  
*October 2000 - Present*

- Wrote and designed a web-based evaluation system (used mostly for engineering course evaluations). Primary features include a WYSIWYG survey editor, a graphical reporting system, an email reminder system, and various administrative interfaces. Written with PHP, SQL, HTML, Javascript, and PL/pgSQL (Postgres procedural query language). Currently at ~20,000 lines of code.
- Other smaller projects include a Webcrawler written in Delphi, a COM component used for authentication written with ATL in C++, and some web development with PHP and MySQL.

Past jobs include temp work for Kelly Services and JFC staffing, phone tech support for Earthlink, electronics sales at Montgomery Ward's, and tech support and computer assembly for *PA Network*, a local ISP in my hometown.

## Skills

### High Proficiency

C++ Language (STL, generic programming), PHP, Javascript, DHTML, SQL

### Medium Proficiency

Win32 Programming (systems, GDI, windowing, COM), Python, Borland Delphi (GUI, Object Pascal), Java (Swing, GUI Development)

### Basic Familiarly

ASP, ASP.NET, C#, Visual Basic

*Visit my homepage to see work I've done in these (and other) languages.*
